

Village Board Meeting

March 2024

Streets

- Getting ready for mowing season. Going through the mowers and trimmers and doing maintenance on them.
- Getting an inventory of potholes so when snow is done, we can fill them in.
- Ordered, and received new motors for Jason's sander. Conveyer and spinner motors.

Water

- Plant is running smoothly.
- We must complete our "lead service line" inspections!
- Plumbing for filter #1 has been completed and it's back online.
- The State DOH will be at the plant tomorrow for the meet and greet and to make sure nothing is needed for their performance evaluation in May.
- Gordan Delpits shut off.
- I have been asked to be on the Schoharie county board of health.

Sewer

- The plant is running fine.
- Happy to announce that Mark has passed his tests for the Morrisville requirements. I now must schedule him for his state ABC exam. When he passes that, with his application and letter of recommendation from me, he will have his license to run the sewer plant.
- Jason went out with Mark Christman to do some manhole inspections for the upcoming Warrentonville sewer project. Found several spots with I&I.
